- 8,800 LF Water System
- 10,000 LF Concrete Curb
- 60,000 SY Stoning/Paving
- HOP Work - Road widening and realignment, draining and signalization

This high profile project involved development of a 72-acre greenfield site in Lehighton, PA. Working within a tight eight month completion window, site contracting crews grappled with extremely steep slopes, harsh weather conditions, and 40 cut and equivalent fill slopes to deliver the project on time and within budget. To meet stringent project deadlines, crews worked double shifts to move an excess of 570,000 cubic yards of earth and rock, and in several instances exceeded an impressive 50,000 cubic yards of material per double shift.
