THE H&K GROUP INTRODUCES SITE CONTAINER SERVICE

The H&K Group is proud to announce another new member of The H&K Group Family of Companies, Site Container Service (SCS). With this exciting addition to our corporate portfolio, The H&K Group enters into another new realm of services for our customers; bulk construction waste disposal.

SCS offers complete roll-off service with the capacity to collect, transfer, and dispose of a wide array of waste materials within southeastern Pennsylvania. Convenient same-day service is available, and SCS has the flexibility to deliver and pick-up in multiple locations several times per day. In these situations, job-specific invoicing will be available to assist our customers with billing and paperwork.

“With a variety of available container sizes, including 20, 30, and 40 cubic yards, our customers will be sure to find the perfect size to fit their waste collection and disposal requirements” explains SCS’s general manager, Sam “Shorty” Jackson. The containers are ideal for the on-site disposal of project materials created from new construction, remodeling, demolition, and roofing. Specialty wastes such as recyclable materials, concrete, brush, and stumps are also accepted.

SCS is currently operating out of our Douglassville, PA location, next to Greger Topsoil and Pottstown Trap Rock Quarry-Douglassville. More information can be obtained from the attached flyer, and look for SCS to be added to our website, www.hkgroup.com, shortly.

Business development or company services questions may be directed to Sam “Shorty” Jackson at SCS’s Douglassville, PA office at (610) 326-1140. All other inquiries may be directed to The H&K Group’s PR/External Affairs office at (610) 222-4039.
